

WOLVERINE EQUIPMENT Large Hydraulic Power Pack

Portable Diesel Hydraulic Power Packs

Specifications

Model	WP-67HD
Engine	Kubota 66.8 hp
Flow Rate	4 to 30 gpm
Pressure	to 2500 psi
Hydraulic Oil Capacity	34 gallons
Hydraulic Oil	Premium a/w- Sperry Vickers M-2950
Fuel Capacity	6.2 Gallons
Size LxWxH	45" x 28" x 48"
Weight Dry / + Fluid	1448 / 1704

Wolverine Equipment builds the largest selection of hydraulic power packs on the market. These power packs are the first available to offer high power and selectable flow in a portable unit.

Customers may choose from several different models, including gas, diesel and electric.

FEATURES

- 67hp Diesel Engine with electric start
- Adjustable gallons per minute from 4 to 30, depending on model
- Industry's first low hydraulic oil level engine shut-off
- Dual hydraulic oil cooling systems (water/oil and oil/air heat exchangers)
- Units are self-contained and easy to move
- Selectable hydraulic flow rate will produce up to 2500psi (pressure relief valve is set at 2650psi)
- Units have 6.2 gal. Diesel fuel tank
- Lifting eye and handles allow for ease of portability
- Power packs are powder-coated for longer wear & durability
- Dual Hydraulic circuits- 1/2" Quick FF Disconnects for Small tools, 3/4 & 1" quick disconnects for large capacity tools, both systems have fully adjustable flow rates.
- Large access panels, for easy accessibility
